

## Transport

**Title of Workshop:** Transport

**Location of workshop (indoors, outdoors etc):** Indoors

**Intended Learning Outcomes:**

- To develop awareness of sustainable modes of transport
- To find ways of overcoming barriers to sustainable travel

**Activity details:**

- Divide group into 4 smaller groups (pairs)
- Each group to be given picture of one mode of travel for school journey, large sheet of paper and marker pen.
- Groups to identify positive and negative aspects of different modes, with regard to health, environment and community **(5 mins)**
- Share findings of each group & discuss **(10 mins)**
- Each group to put up an “expert” for a panel. Other children to read problems for them to solve e.g. *I don't have time to walk to school; My Mum drops me at school on the way to work; It's not safe to cross the road outside school, etc.* **(15 mins)**
