

STARTING POINT MENTORING

What is mentoring?

We support young people aged 15-25 throughout their journey of attaining, sustaining and thriving within education, employment and training. We do this through carefully matching each young person to a mentor who acts as a consistent role model, tailoring the support to each individual's unique needs and aspirations.

When and where?

Sessions primarily take place in public locations such as cafes and libraries. However, mentoring also takes place at our centrally based mentoring hub for young people who may feel uncomfortable meeting in a public environment.

How do I make a referral?
