

All about Lottie

Who am I?

Hello, I'm Lottie and I work as an Assistant Educational Psychologist at Swindon Borough Council. In my spare time, I love being active. I play netball and go running. I love to travel to new places and spend time with friends and family. People would say I am a friendly and positive person.

What do I do?

As an Assistant Educational Psychologist, I help children and young people to reach their goals and thrive within their educational setting. To achieve this, I work closely with families, teachers, and other professionals.

What is important to me?

I believe that every young person deserves to have a positive educational experience that suits them. I want every young person to have a voice, so that they feel heard and included in any decisions around their learning. It is important to me that you feel valued and that your opinion matters. Ultimately, I want you to feel safe, supported, and happy to be able to reach your full potential.

What to expect when you meet me?

When you meet me, I will want to learn about you and discover your strengths, talents, and what you enjoy doing as well as things you find more challenging. I will want to hear about your opinions and feelings on school and home life to get an understanding of what this looks like for you. I may ask you some questions to understand how to best support you and we may play games or complete some activities together. You might see me in your school, such as in the classroom or on the playground, or at home. It's important you feel comfortable, so please feel free to ask me any questions.

How best to contact me?

If you need to get in touch with me, you can speak to the SENDCo at your setting. You can also get in contact by email using the Swindon Educational Psychology Services email address:
