

Swindon and Wiltshire Domestic Abuse Reduction Strategy

2013-2014

Foreword

Domestic abuse is a major social problem that cuts across all social, geographic and cultural groups and has a potentially devastating impact on those affected by it.

Victims experiencing domestic abuse may suffer not only violence but also be subjected to psychological and emotional assaults, financial control and threats. The impact extends to their families and includes children and young people.

It is widely acknowledged that only one in five incidents of domestic abuse is actually reported, with many more people presenting themselves at hospitals or GP surgeries as a result of injuries caused by a current or former partner.

The Swindon and Wiltshire Community Safety Partnerships are committed to reducing the prevalence and impact of domestic abuse in our communities. In this strategy we have set out our approach to working with victims and survivors, children and young people and perpetrators of domestic abuse as well as training and awareness raising and future development. It promotes the need for both the statutory and voluntary sectors to work together effectively, alongside service users.

Domestic Abuse is unacceptable and has to stop. This strategy is our commitment to realising that ambition.

Definition

Swindon and Wiltshire Community Safety Partnerships are committed to reducing the prevalence and impact of domestic abuse in our communities.

This strategy will adopt the definition of domestic abuse, as set out by the Home Office (to be implemented March 2013):

“Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse: psychological, physical, sexual, financial and emotional.”

This definition incorporates abuse between family members (including children to parents/grandparents, between siblings), partners in intimate relationships and includes 'honour' based violence, female genital mutilation (FGM) and forced marriage. It is clear that victims are not confined to age, gender or ethnic group.

The Community Safety Partnerships in Swindon and Wiltshire are committed to working together to seek resolutions to reduce the prevalence of domestic abuse. This strategy builds on the achievements of the previous strategies and sets out the next stages in addressing the issue, in both existing work and plans for future work. It is intended to complement and help strengthen existing provision rather than replace existing projects or initiatives.

This strategy will tackle domestic abuse across five identified priorities and will set out how we will work with:

- **Victims and Survivors**, Swindon and Wiltshire agencies will work together in partnership to meet the needs of all victims and survivors to ensure access to quality appropriate support.
- **Children and Young People**, to recognise the specific needs of and provide support for children and young people whose lives are affected by domestic abuse.
- **Perpetrators of domestic abuse**, to ensure that perpetrators are held accountable for their actions and brought to justice, using both supportive and enforcement approaches to reduce offending behaviour and harm.
- **Training and Awareness Raising**, to increase the local communities and organisations understanding and awareness of the extent and impact of domestic abuse.

- **Future Development**, in both statutory and voluntary agencies, sharing skills, resources and good practice to reduce the prevalence of domestic abuse.

The strategic aims will be achieved through actions which will be set out in the localised Community Safety Partnership implementation plans.

Agencies that will support the delivery of this strategy will include but are **not limited** to:

- Local Authorities
- Criminal Justice agencies
- Health partners
- Voluntary and community sector organisations
- Community groups
- Private sector
- A wide range of community safety partner agencies

The strategy is underpinned by research and needs assessments which can be referenced at the end of this document and should be read in conjunction with the supporting documents listed.

Implementation and Delivery

The strategy is the overarching document which sets out a common understanding and commitment from key stakeholders to tackle Domestic Abuse. It will promote working together in a planned and coordinated way that will drive activities in partnership.

Supporting the strategy is an implementation plan, which has been developed to ensure the strategy is delivered. The implementation plan includes county-wide measures and actions targeted to specific areas. In addition, localised implementation plans will be produced detailing each of the strategic priorities, highlighting:

- Objectives
- Actions required for delivery
- Outputs
- Outcomes

Implementation plans will identify appropriate lead agencies, as well as resource required to deliver outcomes.

Monitoring and Evaluation

The Domestic Abuse Reduction Co-ordinators will have the responsibility for monitoring the progress against the implementation plans. This will be led through the appropriate Domestic Abuse Reduction delivery groups, who will have the remit for implementation of the strategy.

Interim progress reports will be made to the respective Swindon and Wiltshire Domestic Abuse reduction groups and reports by exception submitted to the Swindon and Wiltshire Community Safety Partnerships.

Accountability

The Swindon and Wiltshire Community Safety Partnerships have the responsibility to reduce crime and disorder, including Domestic Abuse.

The partnerships will provide the overarching governance for the Swindon and Wiltshire Domestic Abuse Reduction Strategy, whilst recognising the links to the Criminal Justice Board, Safeguarding Children's Board, Children's Trust Board and Adult Safeguarding Board.

Implementation and delivery of the strategy will be the responsibility of individual agencies through a co-ordinated joined up approach.

Partner agencies recognise their obligations to promote race, equality and diversity in the method, quality and style of service delivery.

Victims and Survivor

This strategy recognises adults, children and young people as either direct or indirect victims and/or survivors who have been either living with or witnessing domestic abuse.

The strategy will ensure that we:

Take a victim focused approach, in order to increase confidence in reporting domestic abuse and to protect victims from experiencing further harm.

This will include:

- Providing clear, accessible information and support.
- Working with local services to further increase opportunities for victims to report domestic abuse in a private and confidential manner.
- Support third party reporting.
- For Children and Young People distinguishing between those that are witnesses and/or living with the effects of Domestic Abuse.
- Children and Young People who are victims in their own relationships.

Take a pro-active approach in assisting and supporting victims and survivors of domestic abuse by working in partnership with local agencies to keep them safe and further reduce the risk of re-victimisation.

This will include:

- Maintain and promote the effectiveness of Multi-Agency Risk Assessment Conferences (MARAC) to mitigate further risk of harm.
- Proactively engage with local agencies and commissioned services to continuously improve multi-agency responses to prevent and reduce domestic abuse.
- Assisting victims to remain in their own homes by providing information, community based outreach services and legal options.
- Support those that intend to leave by providing advice and access to specialist domestic abuse services.

Work with domestic abuse services to raise awareness within local communities and promote zero tolerance for this under reported crime.

This will include:

- Providing training and raise awareness within organisations, local communities and amongst young people to prevent domestic abuse.

Ensure appropriate and sustainable provision of specialist support services for victims and survivors of domestic abuse.

This will include:

- Providing specialist services to assist victims engaged in criminal or civil justice routes.
- Ensuring outcome based commissioning of future domestic abuse interventions and services are appropriate and reflective of local need.
- Ensuring equality and diversity are embedded in all domestic abuse services so the needs of victims from minority and vulnerable groups, including those with no recourse to public funds are met.

Children and Young People

This strategy recognises Children and Young People as either direct or indirect victims and/or survivors who have been either living with or witnessing domestic abuse.

The strategy will ensure that we:

Recognise the needs of and provide support for children and young people who are affected by domestic abuse.

This will include:

- Having procedures in place that enable early identification of children and young people at risk and those deemed vulnerable.
- Ensuring information sharing is robust in identifying and protecting children and young people.
- Ensure that the needs of children and young people are met through existing safeguarding processes.
- Appropriate signposting to services at the first point of contact for advice and support.
- Ensuring services for children and young people are coordinated and link appropriately to existing services, following Working Together 2010 and South West Child Protection Procedures and Policy.

Provide preventative approaches through early interventions and awareness.

This will include:

- Increasing awareness that young people can be victims (*either direct or indirect*) and perpetrators of domestic abuse and the impact this has.
- Working to ensure children and young people have awareness and understanding of domestic abuse, the support that is available and the ways to access it.
- Working with children and young people's services and educational establishments to raise awareness of domestic abuse and protect young people from becoming victims and potential perpetrators.

Perpetrators of Domestic Abuse

The strategy will recognise that in addition to adult perpetrators of domestic abuse, young people may be identified as having or developing abusive behaviours.

The strategy will ensure that we address the systematic nature and cyclical pattern of abuse:

Working with perpetrators of domestic abuse, both convicted and non-convicted to reduce risk of reoffending and harm.

To enable perpetrators to recognise and understand their own behaviour and the impact that it has, to be held accountable and to take responsibility.

This will include:

- The use of criminal and civil options being fully utilised.
- A timely and proportionate criminal justice response to crime reports.
- Specialist support services to encourage engagement of victims in criminal and civil justice processes to challenge perpetrator behaviour.
- Develop and maintain programmes for perpetrators for behaviour change (both court mandated and voluntary/community) programmes for perpetrators of domestic abuse to address and change abusive and controlling behaviour.
- Early identification of young people at risk of developing abusive or unhealthy behaviours.
- The provision of appropriate support for children and young people engaging in or at risk of unhealthy and abusive behaviours in relationships.

Training and Awareness Raising

The strategy will ensure that we:

Work to increase understanding and awareness of the extent and impact of domestic abuse in local communities, agencies and organisations.

This will include:

- The delivery of sustainable multi-agency training in domestic abuse awareness, identification, risk assessment, safety planning and appropriate referral to support services for victims and perpetrators.
- Providing opportunities for practitioners to maintain continuing professional development and ensure their learning is incorporated into their working practices.

Develop a coordinated approach for domestic abuse awareness raising opportunities.

This will include:

- A targeted schedule of awareness raising activities identified every year.
- Publicity and awareness information to be easily accessible to the public and frontline practitioners.
- To undertake targeted campaigns in local communities to raise awareness that domestic abuse is not restricted or confined to age, gender or ethnic groups.
- To promote a zero tolerance of domestic abuse in all its forms.

Future Development

The strategy will ensure that we:

Strengthen existing partnership working to address domestic abuse across Swindon and Wiltshire to protect victims.

This will include:

- Providing opportunities for agencies to share best practice and promote continued professional development.
- Working with strategic partners to secure future sustainable funding for domestic abuse interventions and services, which are responsive and reflective of local need.
- Ensuring domestic abuse is included within the local strategic planning framework and implemented within relevant organisational policies and plans.
- Working to further develop appropriate mechanisms to record domestic abuse data and intelligence to inform future strategic need assessments and evidence based responses to addressing domestic abuse.
- Working to support the effective operation and continuous support to protect victims.
- Maintaining knowledge of local and national good practice around outcome focused interventions to restore a healthy relationship.
- The promotion of confident and appropriate information sharing.

Glossary of Terms

The Community Safety Partnership – is made up of statutory partners in Swindon and Wiltshire, including police, fire and rescue service, councils, NHS and probation services. These agencies are committed to tackling the reduction of Domestic Abuse as an identified priority in the Strategic Assessment.

Controlling behaviour is: a range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.

Coercive behaviour is: an act or a pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish, or frighten their victim.

MARAC - Multi-Agency Risk Assessment Conferences for domestic abuse, a case conference meeting for victims identified at highest risk. It provides a forum for sharing information and taking action that will reduce harm. MARACs are outcome focused. Attendance is by key agencies from the statutory and voluntary sector working in the field of domestic abuse.

Victim and Survivor - The difference between a victim and a survivor is that a victim is someone who has been or is being harmed by another person. Harmed can mean many different things including molested, insulted, demeaned, abused and assaulted. A survivor is someone who despite having been a victim has left the emotional, mental and physical captivity of an abuser behind and has committed themselves to moving.

LSCB – Local safeguarding Children Board - Local partnership boards were set up by the Government as part of the system of checks and balances to make sure that partners are held to account about how children and young people are kept safe and that they receive consistent and excellent provision.

LSAB – Local safeguarding Adult Board - is a multi-agency partnership, which actively engages in providing better protection for individuals needing care and support. Whilst safeguarding adults' protocols refer to all people over the age of 18 years and who fit the definition of a vulnerable adult, the majority of alerts and/or concerns raised fall within people aged 65 years and over.

CJB – Criminal Justice Board – is responsible for the effectiveness of the Criminal Justice System (CJS) in Wiltshire and Swindon. It brings together the agencies involved in delivering criminal justice within the county, which are Wiltshire Police, Wiltshire Probation Area, Her Majesty's Courts and Tribunal Service, Her Majesty's Prison Service, Wiltshire Youth Offending Service, Swindon Youth Offending Team and the Crown Prosecution Service.

Children's Trust – Children's Trust arrangements are no longer mandatory, local decisions have been made to continue to work together to make a difference and the Children and Young People's Trust works closely with the Local Safeguarding Children Board (and other groups such as Health and Wellbeing Boards).

Health and Wellbeing Board - The Health and Social Care Act 2012 establishes health and wellbeing boards as a forum where key leaders from the health and care system work together to improve the health and wellbeing of their local population and reduce health inequalities. Board members will collaborate to understand their local community's needs, agree priorities and encourage commissioners to work in a more joined up way.

Diversity Impact Assessment (DIA) - This is a tool to help make sure that we carry out our functions and deliver our services in the way they are intended and for everyone, regardless of age, gender, sexual orientation, disability, race, religion and/or belief. DIAs make sure we meet our legal equality duties through assessment of the likely (or actual) equality effects of our policies, functions or services on Wiltshire and Swindon's diverse populations. This includes looking for opportunities to promote equality that have previously been missed, as well as negative impacts that can be removed, mitigated or justified.
