Under Universal Credit a broader span of claimants are required to look for work than under Jobseeker's Allowance. As Universal Credit Full Service is rolled out in particular areas, the number of people recorded as being on the Claimant Count is therefore likely to rise. This dataset only includes claimant records with information to sufficiently classify them within the dataset. Totals from this dataset may not tally with the total number of claim records shown elsewhere as a small number of records do not have this information. All data are rounded to the nearest 5 and may not precisely add to the sum of the number of people claiming JSA, published on Nomis, and the number of people claiming Universal Credit required to seek work, published by DWP, due to independent rounding. Rates for local authorities from 2019 onwards are calculated using the mid-2019 resident population aged 16-64.
