hi Graham

We have two people so far that have confirmed they walked through the gap to the north of gate at point c.

Rosemary Savage and Steve Savage.

Although you and Martin Savage have objected, I have no witness testimonial to back up my assertion the gate was often locked and therefore the most walked route was through the gap in alignment with the order route.

We either need you and Martin to add to your statements or find some other witnesses.

Sorry to leave this with you.

John
