

# YOU SAID, WE DID, WHAT DIFFERENCE IT MADE!

This page show examples of times your feedback has been heard and what changes have been made afterwards - these changes were made because of what you said!

## You said

Our CLA Consultation forms need more tick boxes and online would be your preferred way to complete these.

## We did

We changed all the questions that you wanted changing, these included more tick boxes and space to write some answers! These are now online and sent before your CLA!

## The difference

The consultation forms have been co produced and shared with children in care before being changed. These now contain the questions you feel you should be asked before your CLA Reviews. As we have worked with you on these we hope more young people will complete these.
