

THE SWINDON BOROUGH COUNCIL(VARIOUS ROADS, SWINDON) (SPEED LIMITS)
CONSOLIDATION ORDER 2022 VO13 2023 Ocotal Way, Swindon

STATEMENT OF REASONS

The purpose of this Order is introduce the 30mph speed limit (restricted road status) and revoke the 40mph speed limit traffic regulation order on Ocotal Way for its full length - from Drakes Way junction to include both the circulatory roundabouts at Transfer Bridges including the eastern and western approach from Great Western Way to Transfer Bridges most Northern Roundabout. This will also include the circulatory roundabouts at the Tesco junction and Colbourne Road junction.

This work is necessary as part of the Council's School Safe Environment Zone Programme for St Joseph's College due to the number of young adults/children walking along Ocotal Way. This proposed 30mph limit is required to be introduced to reduce the speed along Ocotal Way to assist in maintaining a manageable speed along this section of road.

This Order is for safety of all road users using this section of road.
